PROJECT WORK

Online Store | Full Stack Engineer | [Deploy URL](#) | [Code URL](#) 2021

A web application for anyone who sells their creative products and who purchases unique goods.

- Wrote 10 client side components using ReactJS, React Router and Bootstrap, resulting in rendering over 10+ pages.
- Created 5 controllers and 11 API routes for server side for CRUD actions of users, products and orders using ActionController library, Ruby on Rails, and Ruby, resulting in 2x faster development.
- Created a feature to encode/decode users' data using JSON Web Token, resulting in secured communications between client side and server side.
- Created a feature to encrypt/decrypt users' to store passwords as non-human-readable in the database using bcrypt library, resulting in increased password security in case of database compromise.
- Create a feature to upload users' images and store them in the local database using Ruby on Rails, Ruby, and ActiveStorage library, resulting in easier access to their images.
- Designed 6 relational tables and 4 models using Sqlite, Ruby on Rails, Ruby, and ActiveRecord library, resulting in persisting the data of users, products and orders.

Commercials Board | Full Stack Engineer | [Deploy URL](#) | [Code URL](#) 2020

A web application for small business owners spreads their excellent products.

- Created a feature to allow users to login using Github accounts using OmniAuth, Ruby, Ruby on Rails and ActiveRecord libraries, resulting in flexibility to access accounts from third-party authentication.
- Created 12 views for client-side components using ERB template, HTML, CSS, and SCSS, resulting in the compatibility with Ruby and the convenience in development.
- Built 4 controllers and 24 routes for CRUD actions of users, commercials and comments using ActionController library, Ruby on Rails and Ruby, resulting in 2x faster development.
- Designed 4 relational tables and 4 models using Ruby, Ruby on Rails, ActiveRecord and Migrations libraries, resulting in persisting the data of users, commercials and orders.
